MKHoster *.com* is an Egyptian company owned by dr.Mohamed Khattab *CEO & Founder*. Since opening our doors in 2001, has grown into a full-service web solutions agency focused on creating integrated strategies, intuitive technology and award-winning design work that produce meaningful results. In that time, we have been meeting the needs of every organization we serve while growing as a strong, creative and strategic partner. Branding and identity. Marketing consulting. Internet marketing. Social media. Graphic design. Advertising. Everything we do is about contributing to the growth and long-term success of your organization.

MKHoster *.com* strives to collaborate with our clients to bring creativity and innovation to all aspects of their organizations. We foster an environment for our employees that encourages thinking outside the box, honest communications, productive team interactions and personal growth. We have the ultimate goal of building a successful organization by remaining a strong and relevant leader in our industry.

At **MKHoster** *.com*, there is a commitment to be a responsible member of the society through establishing service projects like our own project mag4wedding.com or sponsoring another kind of national projects like egymade.com
